

Sightseeing recommendations

- **Piazza Batumi** - Batumi piazza, a meeting point for locals and tourists, was built in old Batumi in 2009 by famous Georgian architect Vazha Orbeladze. The entire building is a unique mixture of diverse styles and trends. Our hotels Piazza Boutique and Piazza Four Colors are luxury hotels that offer an unforgettable experience and a perfect way to liven up any time of the year.
- **Batumi Botanical Garden** - Batumi Botanical Garden, located at the distance of 9 km from the center of Batumi, occupies the area of 108, 7 hectare of approximately 1 km stripe of Southern-Western section of the coastline located between the river Chakvistskali estuary and the Green Cape, being spread to the height of 0-220 meters from the sea level, which not long time ago was totally covered with Kolkheti type forest (beech, chestnut, linden) and evergreen sub-forest.
- **Mtirala National Park** - Mtirala National Park is located between the territories of Kobuleti, Khelvachauri and Keda municipalities. Park is 25 km far from Kobuleti and 27 km far from the Administrative building. Visitor Center is located in Village Chakvi. Mtirala National Park is the only place where 220 meters zip-line is arranged.
- **Cable car** - The first cable car was opened in 2013, and since then more than two million people have traveled with it. The journey with ARGO begins in Batumi, on Gogebashvili Street, and ends on Anuria Mountain, 256 meters above sea level. On a Cable car, there are 20 eight-seat gondolas; the length of the road is 2,586 meters, and it takes 15 minutes to cross it. In one hour, around 500 passengers can be moved.
- **Ali & Nino statue** - It was this famous love that inspired Georgian artist Tamara Kvesitadze to create her monumental moving sculpture in 2010. The giant metal artwork, also known as the "Statue of Love" consists of two somewhat transparent figures made of stacked segments. Each day at 7 PM, the two figures slide towards each other, eventually merging as their segments pass between each other, never truly connecting.
- **Alphabet Tower** - 130 meters high, with 33 letters of the Georgian alphabet, similar to the DNA model of a cell structure in [Batumi](#). The tower is one of the best modern architectural buildings dedicated to the Georgian

alphabet. The alphabet tower is located in [Boulevard](#). It is one of the best places to watch the city panoramas. There is an information-tourism zone on the top of the tower, a **rotating panoramic restaurant**, an open terrace and an **observatory**. The panoramic restaurant rotates 360 degrees and guests have an opportunity to enjoy sceneries of Batumi in an hour. There are also conference rooms and VIP rooms in the tower.
